

Hair100 Colour Match App

User Guide

Simple step-by-step instructions to get your perfect colour match

1. Get Started

- Open the Hair100 app.
- Read and agree to the Terms & Privacy Policy.
- Tap Start to begin.

2. Upload Your Photo

You'll be asked to provide a photo so the app can analyse your hair colour.

- Upload Photo – Select a photo from your gallery.
- Take Photo – Use your camera to take a new photo.
- Photo Instructions – View tips for best results.

Photo Tips:

- Turn your face sideways and make the hair clearly visible.
- Avoid filters or heavy editing.
- Use natural daylight and avoid direct sunshine on hair if possible.

3. Trim Your Photo

- Adjust the crop so only the hair area remains (no face or background).
- Make sure your hair edges are clearly visible.
- Tap Done when satisfied.

4. Confirm Your Photo

- Review the cropped image.
- Tap Done if correct.
- If not, go back and re-trim or upload a new photo.

5. Choose Lighting Condition

- Natural Daylight – Best accuracy (recommended).
- Indoor Lighting – Softer, artificial light.

Tap Next to continue.

6. Choose Number of Colours

This helps refine the accuracy of your match:

- Single Colour – One consistent shade.
- Two Colours – Ombre or blended look.
- Three Colours – Highlights or multi-tone hair.

Select one and tap Next.

7. Choose Hair Type

Tell the app how your hair colour transitions:

- **Piano Hair** – Distinct colour contrast.

- **Ombre Hair** – Smooth gradient transition from top to bottom.

Select one and tap Next.

8. View Your Results

If an exact match is found, you will see:

- Top Match
- Second Match
- Third Match

Tap Finish to complete.

If no exact match is found:

- The app will show the 3 closest matches.

- These are the nearest available colour options.
